

**Abstract of the Disclosure**

This invention relates to a lubricating oil composition, comprising:

- (A) a base oil;
- (B) a molybdenum and sulfur containing composition derived from a basic  
5 nitrogen containing compound, a molybdenum compound and carbon disulfide;
- (C) a boron-containing compound; and
- (D) optionally a phosphorus containing compound, provided the  
phosphorus content of the lubricating oil composition does not exceed about 0.10%  
by weight.
